TechTalks 2021!: “Hack to the Future”

October 19 - 20 and 27, 2021

Via Zoom

I. Rationale/Background

The future has arrived. Now we have to ensure that we have a place in it!

From globalization to digitalization, ICT revolution has profoundly changed the rules of the game.

The same is true for both career and business – where education and experience, though still critical, may no longer be enough. People have to adapt, and to learn new technologies and new ways of doing business if they are to prosper in the 21st century. As the learning curve grew steeper, it requires us to do and learn more, in less time.

It is in this regard that the Department of Trade and Industry – Cagayan Provincial Office through its Industry Development and Investments Promotion (IDIP) Unit of the Business Development Division (BDD) aims to conduct an activity entitled “Tech Talks 2021”!: “Hack to the Future”.

To achieve this, one of the strategies is to collaborate with Regional Line Agencies, Academes and Private Organizations for the realization of this activity.

II. Objectives

This activity aims to support and promote the development of Information and Communications Technology (ICT) as one of the identified priorities in Region 02.

1. To conduct an Advocacy Webinar on Career and Business Opportunities in ICT – Oct. 19 - 20, 2021

A webinar aimed at inspiring students (preferably ICT-related college/high school students), MSMEs, startups, and professionals to explore the career and business opportunities in ICT.

2. To conduct an Inter-School ICT Competition (Hackathon) – Oct. 27, 2021

An ICT-inspired pitching competition among the Academes (Universities, High Schools, State Universities and Colleges) wherein participating schools are to prepare a concept paper that proposes ICT-enabled solutions which addresses current issues or problems in the province of Cagayan.
