CONCEPT PAPER

I. GENERAL INFORMATION

| | |
|-----------------------------|--|
| NAME OF ACTIVITY: | Webinar on Data Privacy and Security |
| TARGET DATE: | September 17, 2022 |
| TARGET VENUE: | Virtual |
| TARGET PARTICIPANTS: | Interested Engineering and IT Education Students and Faculty in Region 2 Industry Practitioners in Region 2 |

II. RATIONALE:

The continuing changes accompanied with the newest and advanced technology inventions worldwide provide the students opportunities to acquire new knowledge and attitude beyond the portals of the school. Today, the topic inside the classroom was not meant to be discussed only inside the classrooms but it should be extended beyond the four walls of classroom. The learnings in the institution becomes more meaningful and more interesting when demonstrated by actual viewing and experience.

Considering the current scenario and the challenge to embrace the "new normal" environment facing the education realm, the Philippine Commission on Higher Education advised the Higher Education Institution to start adopting the flexible learning modalities to ensure safety of the Filipino learners against being infected with the virus. HEI's tasked to adopt a transformative teaching-learning process that is flexible adaptable and agile in context in practice. It, therefore, mandates the institution to have a wide range of flexible learning opportunities to all students and to consider how best to address the needs of the learners in meeting the learning competencies per curriculum level.

Thus, the ICpEP-R2 and MRSP-Isabela will conduct a Webinar on Data Privacy and Security. This is conceptualized to fully abreast them the IT as a profession in the corporate arena. This would help the students and professionals to engage into activities that would made them be fully aware, informed, and well-oriented on the different technologies that were newly invented to be competent in the practice of their profession in the future.

This gathering is a great opportunity to unite the Engineering, IT Education Students, Faculty and Industry Practitioners in Region 2 . Achieving the greatest brick of objectives is a way to reach the zenith of everybody's satisfaction. This will make the Engineering and IT Education Students, Faculty and Industry Practitioners in Region 2 a globally competitive and even more firm with their profession. Thus, we believe that Education must not stop despite of adversities. Hence, your support and approval of this request are earnestly sought.

III. OBJECTIVES

1. To update participants on the latest/future trends in the industry;
2. To build a central source of interest and value to members, the profession and the general public;
3. To enhance competencies of students and professionals through various technological topics related to ICT;
4. Ascertain and appreciate further the chosen field of the students.
5. Promote friendship and mutual respect and understanding and a strong bond between students.
6. Develop higher cognitive skills among students and professionals
7. To build a central source of interest and value to members, the profession and the general public;

IV. PARTICIPANTS

Interested Engineering and IT Education Students and Faculty in Region 2
Industry Practitioners in Region 2

V. GUIDELINES:

The procedural process has come to the following stages:

A. PRE-IMPLEMENTATION STAGE

INSTITUTE OF COMPUTER ENGINEERS OF THE PHILIPPINES-REGION 2 CHAPTER

in partnership with

MECHATRONICS AND ROBOTICS SOCIETY OF THE PHILIPPINES- ISABELA CHAPTER

The officers of ICpEP-R2 and MRSP Isabela conducted a meeting about the said activity last August 18, 2022 via Zoom meeting. The body agreed that the webinar will be taken virtually via zoom app. There is a lot of activities to make everyone participate. Thus, the 2 professional organization will hold the webinar on Human Computer Interaction.

B. IMPLEMENTATION STAGE

The participants will observe the following agreements on/before the activity:

- ❖ The participants should have zoom cloud app for them to participate in the program.
- ❖ **This is a free webinar. No registration fee shall be collected to the interested participants.**
- ❖ Students must log in their zoom account before or exactly 3:00 in the afternoon.
- ❖ Participants must have a strong internet connection to minimize technical problems.
- ❖ The participants of said activities should provide their own materials and equipment.
- ❖ The officers of ICpEP-R2 and MRSP-Isabela shall maintain the smooth flow of the program.
- ❖ Proper decorum and self-discipline are expected.
- ❖ Rules and regulations should be strictly followed.

C. EVALUATION STAGE

After the conduct of the program, there will be a link provided and shared to participants for evaluation forms to measure the success of the event. By the care of the officers of the 2 professional organization, evaluation forms shall be retrieved. A post meeting will be held in case there are issues and concerns encountered during the conduct of the program and will be properly documented for further improvement and revision. The organizers are expected to submit written narrative report, tally result of the evaluation to gauge the efficiency and effectiveness of the program and the team and to know if the objectives set were achieved.
